

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	XXXXXX
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and the problem of manual credit card approval.	2	Vaibhav
2	Dataset & Model Explanation	Explain the dataset, preprocessing steps, feature selection, and Machine Learning model used.	3	Vaibhav
3	Live Application Demo	Demonstrate the Flask web application by entering applicant details and generating prediction results.	4	Vaibhav
4	Prediction Result Analysis	Explain why the application is Approved or Rejected based on the input features	2	Vaibhav
5	Model Performance	Present accuracy, precision, recall, F1-score, and confusion matrix.	2	Vaibhav

6	Future Scope & Conclusion	Discuss future enhancements, summarize the project, and answer audience questions.	2	Vaibhav
---	---------------------------	--	---	---------

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the challenges of manual credit card approval and the need for automation.
2	Solution Overview	Describe the system architecture, Machine Learning model, Flask application, and workflow.
3	Live Feature Demonstration	Enter applicant information, run the prediction, and display whether the application is Approved or Rejected with prediction results.
4	Q&A Session	Answer questions, discuss limitations, future improvements, and conclude the presentation.
