

No. of Functional Features Included in the Solution

Date	7 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Applicant Data Entry	Allows users to enter applicant details for prediction.	User Interface	Done	High
2	Data Preprocessing	Cleans, encodes, and normalizes input data before prediction.	Data Processing	Done	High
3	Credit Card Approval Prediction	Uses a Random Forest model to predict approval or rejection.	ML Model	Done	High
4	Prediction Result Display	Displays approval/rejection result instantly.	Prediction Module	Done	Medium
5	Model Performance Evaluation	Evaluates model using Accuracy, Precision, Recall, and F1-Score.	Evaluation Module	Done	Medium
6	Dataset Management	Loads and manages the credit card dataset.	Database / Dataset	Done	Medium
7	Error Validation	Validates missing or invalid user inputs.	Backend Logic	Done	Medium
8	Flask Web Application	Provides a web interface for user interaction.	Frontend + Backend	Done	High

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	Applicant Data Entry, Data Preprocessing, Credit Card Approval Prediction, Result Display

Additional / Nice-to-Have Features	Performance Evaluation, Error Validation, Flask Web Interface
Features Tested & Verified	All 8 features tested successfully

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Applicant Form, Prediction Result Page
2	Backend / Logic	3	Data Preprocessing, Prediction Engine, Input Validation
3	Database / Storage	1	Credit Card Dataset (CSV)
4	API / Integration	1	Flask Backend Integration
5	Security / Authentication	1	Input Validation and Secure Data Handling
