Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	Project Team	Discuss daily tasks, progress, and blockers
2	Progress Update	Weekly	Google Meet / MS Teams	Team Members, Mentor	Review project progress and assign next week's tasks.
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub	Development Team	Resolve coding issues, model errors, and integration problems.
4	Stakeholder Review	Bi-Weekly	Presentation / Google Meet	Mentor, Team Members	Demonstrate project progress and receive feedback.
5	Final Demo Rehearsal	Once	Offline / Google Meet	Entire Team	Practice the final presentation and validate the application before submission
6	Final Project Submission	Once	Skill Wallet / LMS	Team Leader, Mentor	Submit the completed project documentation and source code.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Dataset preprocessing and missing values caused inconsistent model results.	Cleaned the dataset, handled missing values, and standardized the input features before training.
2	Team members faced difficulties integrating the Flask application with the Machine Learning model.	Conducted team discussions, divided responsibilities clearly, and tested the integration module step by step.
3	Scheduling conflicts among team members.	Planned weekly meetings in advance and used WhatsApp for quick updates and coordination.
