

Demonstration of Proposed Features

Date	7 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Data Input	Allows users to enter applicant details such as age, income, employment status, credit score, and loan amount.	Implemented	Yes	Working successfully
2	Data Preprocessing	Cleans and prepares input data before prediction by handling missing values and encoding features.	Implemented	Yes	Tested successfully
3	Credit Card Approval Prediction	Uses the trained Machine Learning model to predict whether the application is Approved or Rejected.	Implemented	Yes	Prediction accuracy verified
4	Prediction Result Display	Displays the prediction result instantly with a simple user interface.	Implemented	Yes	User-friendly output

5	Model Performance Evaluation	Evaluates the model using metrics such as Accuracy, Precision, Recall, and F1-Score.	Implemented	Yes	Performance validated
6	Web-Based User Interface	Provides an interactive Flask web application for users to access the prediction system.	Implemented	Yes	Fully functional

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
